Important Notice to Policyholders

This policy document should be read in conjunction with the Policy Schedule, which sets out individual benefit limits, deductibles, and applicable excesses for your specific plan. In the event of any conflict between this document and the Schedule, the Schedule prevails.

Part I — Coverage & Eligible Events

Scope of benefits provided under this travel insurance policy

SECTION 1.1

Scope of Cover

This policy covers financial losses and additional expenses incurred by the insured as a direct result of a covered travel disruption event occurring during the policy period. Cover includes flight delay compensation, baggage loss or damage, trip cancellation, missed connection, and emergency medical expenses abroad, subject to the limits, conditions, and exclusions set out in this document and the Policy Schedule.

SECTION 1.2

Covered Events

The following events are covered under this policy: (a) Flight Delay — where a booked flight is delayed for more than 4 hours from the scheduled departure time due to a cause beyond the insured's control; (b) Baggage Loss — where checked baggage is permanently lost by the airline; (c) Baggage Damage — where checked baggage or its contents are damaged in transit; (d) Trip Cancellation — where a trip is cancelled before departure due to a covered reason; (e) Trip Curtailment — where a trip is cut short due to a covered reason; (f) Missed Connection — where the insured misses a connecting flight due to a delayed incoming flight; (g) Medical Emergency Abroad — where the insured requires emergency medical treatment outside their home country.

Part II — Flight Delay Benefit

Compensation for delayed flights under this travel insurance policy

SECTION 2.1

Flight Delay — Domestic

Flight Delay benefit is payable when the insured's scheduled domestic flight is delayed by more than 4 consecutive hours from the published departure time for reasons beyond the insured's control, including but not limited to: technical or mechanical failure of the aircraft; adverse weather conditions grounding the flight; air traffic control restrictions; or airline operational disruption. The benefit is paid as a fixed daily allowance per the schedule for each completed 4-hour delay period, up to the maximum limit stated in the Policy Schedule. The insured must obtain an official Airline Delay Certificate confirming the delay duration and reason. A boarding pass for the affected flight is also required. Voluntary changes, missed check-in, and passport or visa issues are not covered under this section.

SECTION 2.2

Flight Delay — International

International flight delay benefit applies when a booked international flight is delayed by more than 4 hours from the scheduled departure time due to a covered cause. The benefit amount per hour of delay beyond the 4-hour threshold is as set out in the Policy Schedule. In addition to the fixed delay allowance, the insurer will reimburse reasonable and necessary out-of-pocket expenses incurred during the delay, including meals, refreshments, and accommodation where the airline does not provide these, up to the sub-limit specified in the schedule. Original receipts must be provided. An official Airline Delay Certificate from the carrier is mandatory for all flight delay claims. Claims without an Airline Delay Certificate will not be processed.

Part III — Baggage Loss & Damage

Cover for lost, stolen, or damaged baggage during travel

SECTION 3.1

Lost Baggage

Lost Baggage benefit is payable when the insured's checked baggage is permanently lost by the airline and not recovered within 48 hours of arrival at the destination. The insured must obtain a Property Irregularity Report (PIR) or Baggage Loss Report from the airline at the time of the incident and prior to leaving the baggage claim area. The insurer will reimburse the replacement value of lost items up to the per-bag limit stated in the schedule, subject to depreciation based on the age of the item. Original purchase receipts, the airline's Property Irregularity Report (PIR), the boarding pass, and a written confirmation from the airline that the baggage was not recovered are required. Baggage delayed for less than 48 hours is not payable under this section but may qualify under the baggage delay benefit if specified in the schedule.

SECTION 3.2

Damaged Baggage

Damaged Baggage benefit is payable when the insured's checked baggage or its contents are physically damaged during transit in the care of the airline. The insured must report the damage to the airline before leaving the baggage claim area and obtain a Property Irregularity Report (PIR) documenting the damage. The insurer will pay the repair cost or, where repair is uneconomical, the replacement value less depreciation, up to the sub-limit in the schedule. Documentation required: airline Property Irregularity Report, photographs of the damaged baggage, repair estimate or replacement invoice, boarding pass, and the original baggage tag.

Part IV — Trip Cancellation & Curtailment

Cover for cancelled or curtailed trips due to covered events

SECTION 4.1

Trip Cancellation

Trip Cancellation benefit is payable for non-refundable travel and accommodation expenses when a trip is cancelled before departure due to any of the following covered reasons: (a) sudden serious illness or accidental injury of the insured, an immediate family member, or a travelling companion, certified by a registered medical practitioner; (b) death of the insured, an immediate family member, or a travelling companion; (c) natural disaster, civil unrest, or government-imposed travel restriction at the destination; (d) redundancy of the insured (subject to eligibility conditions); (e) jury service or witness summons that cannot be postponed. Cancellation due to change of mind, pre-existing medical conditions (unless specifically covered), or events known at the time of booking are excluded. A boarding pass or confirmed flight itinerary, airline cancellation confirmation, and policy bond are required to support the claim.

SECTION 4.2

Trip Curtailment

Trip Curtailment benefit is payable for unused and non-refundable portions of the trip when the insured is compelled to return home early due to a covered event that arises after departure. Covered reasons mirror those for trip cancellation. The benefit is calculated on a pro-rata basis for the unused days of the trip. The insured must obtain written confirmation of the early return from a treating physician or relevant authority. Required documents: boarding pass for the original and return flights, travel itinerary, medical certificate if applicable, and the original policy bond.

Part V — Missed Connection

Benefit for missed connecting flights on the same itinerary

SECTION 5.1

Missed Connection Benefit

Missed Connection benefit is payable when the insured misses a connecting flight that is part of the same booked itinerary due to the late arrival of the incoming flight, provided: (a) both the incoming and connecting flights are on the same booking reference or itinerary; (b) the insured had sufficient connection time as per the airline's minimum connection time at the connecting airport; and (c) the delay of the incoming flight was caused by a reason beyond the insured's control. The insurer will reimburse reasonable additional transportation and accommodation costs incurred to reach the final destination, up to the limit in the schedule. An official confirmation from the airline, boarding pass for the missed connection, and the original itinerary are required. Missed connections caused by the insured's own late arrival at the airport, immigration delays, or insufficient connection time booked by the insured are excluded.

Part VI — Medical Emergency Abroad

Emergency medical treatment expenses incurred outside the home country

SECTION 6.1

Emergency Medical Expenses

Emergency Medical Expenses abroad are covered when the insured requires urgent and unplanned medical treatment for an illness first manifesting, or an accidental injury occurring, during the trip. The insurer will reimburse reasonable and customary medical expenses including: emergency hospital admission and treatment; surgeon, physician, and specialist fees; prescribed medicines and consumables; diagnostic tests directly related to the emergency condition; and ambulance charges. Expenses must be incurred outside the insured's home country. Treatment must be certified as an emergency by the treating physician. The insurer must be notified as soon as practicable and, wherever possible, prior to any non-emergency admission. Pre-existing conditions are excluded unless the policy schedule specifically endorses cover for a declared pre-existing condition.

SECTION 6.2

Medical Evacuation

Where the insured requires emergency medical evacuation to the nearest appropriate medical facility or repatriation to their home country due to the severity of the medical condition, and such evacuation is certified as medically necessary by the attending physician, the insurer will arrange and bear the cost of evacuation. All evacuation arrangements must be pre-approved by the insurer's 24-hour emergency assistance centre unless circumstances make it impossible to obtain prior approval. Repatriation of mortal remains in the event of the insured's death during the trip is also covered up to the limit in the schedule.

Part VII — Exclusions

SECTION 7.1

The following are permanently excluded regardless of policy tenure:

This exclusion applies regardless of whether war or terrorism has been formally declared. Travel to a destination that was under a government travel ban or 'Do Not Travel' advisory at the time the trip was booked is also excluded.
