Key Definitions

Terms used throughout this policy document

Term	Definition
Insured	The person(s) named in the policy schedule who are covered under this policy.
Policyholder	The individual or entity in whose name the policy is issued and who is responsible for premium payment.
Sum Insured	The maximum amount payable by the insurer for all claims during a single policy year, as stated in the schedule.
Pre-existing Condition	Any illness, disease, or injury for which the insured received treatment, diagnosis, medical advice, or consultation within 48 months prior to policy inception.
Network Hospital	A hospital that has entered into an agreement with the insurer or TPA for cashless treatment of insured persons.
TPA	Third-Party Administrator — the entity authorised to manage and process health insurance claims on behalf of the insurer.
Day-Care Procedure	A medical procedure or surgery requiring less than 24 hours of hospitalisation due to technological advancement.
Reasonable & Customary	Charges that are consistent with the going rate or charge in the geographical area for identical or similar services.
Policy Year	A period of 12 consecutive months commencing from the policy inception or renewal date.
Waiting Period	A specified period after policy inception during which benefits for certain conditions are not payable.

Important Notice to Policyholders

This policy document should be read in conjunction with the Policy Schedule, which sets out individual limits, sub-limits, deductibles, and co-payment percentages applicable to your specific plan. In the event of any conflict between this document and the Schedule, the Schedule prevails.

Part I — Coverage & Eligible Expenses

Scope of benefits provided under this medical insurance policy

SECTION 1.1

Scope of Cover

This policy covers reasonable and customary medical expenses incurred by the insured as a result of illness, disease, or bodily injury first occurring and diagnosed during the policy period. Cover includes in-patient hospitalisation, day-care procedures, pre- and post-hospitalisation expenses, and domiciliary treatment where specified.

SECTION 1.2

Eligible Expenses

Eligible medical expenses include: room and board charges up to the sub-limit specified in the schedule; surgeon, anaesthetist, and specialist fees; diagnostic tests, X-rays, and laboratory charges directly related to the admitted condition; medicines and consumables prescribed during hospitalisation; and ICU charges up to 2× the room sub-limit per day.

Part II — Pre-existing Conditions

Conditions and limitations related to pre-existing medical conditions

SECTION 2.1

Pre-existing Conditions

Pre-existing conditions are defined as any illness, disease, or injury for which the insured received treatment, diagnosis, medical advice, or consultation within 48 months prior to policy inception. Pre-existing conditions are excluded from cover during the first 36 months of continuous policy coverage. After 36 months of uninterrupted renewal, pre-existing conditions become fully covered.

SECTION 2.2

Undisclosed Pre-existing Conditions

Failure to disclose a pre-existing condition at the time of proposal renders the claim voidable at the insurer's discretion. If non-disclosure is established, the insurer may repudiate the claim and cancel the policy with refund of pro-rata premium only. Deliberate concealment constitutes fraud and no premium shall be refunded.

Part III — Waiting Periods

Periods during which certain benefits are not payable

SECTION 3.1

Waiting Period — General Illnesses

A 30-day waiting period applies from the policy inception date for all claims arising from illness or disease, excluding accidental injuries. No benefit is payable for any illness-related hospitalisation commencing within the first 30 days. This waiting period is waived for renewals without a break in cover.

SECTION 3.2

Waiting Period — Specific Procedures

A 24-month waiting period applies to the following conditions and procedures regardless of when symptoms first appeared: cataract surgery, hernia repair, knee and joint replacement, hysterectomy, gallbladder removal (cholecystectomy), kidney stones, tonsillectomy, appendectomy (unless emergency), varicose veins, and piles. Claims for these procedures submitted before 24 months of continuous cover will be declined.

SECTION 3.3

Waiting Period — Maternity

Maternity benefits, including normal delivery, caesarean section, and new-born cover, are subject to a 9-month waiting period from the first policy inception date. Claims for delivery or pregnancy complications occurring within 9 months of first cover will not be admissible. New-born cover commences from day 1 of birth if the mother is an insured member at the time of delivery.

Part IV — Hospitalisation Benefits

Benefits applicable for in-patient hospitalisation and critical care

SECTION 4.1

In-patient Hospitalisation

In-patient hospitalisation benefit is payable when the insured is admitted as an in-patient for a minimum continuous period of 24 hours. Admission must be on the advice of a registered medical practitioner. The insurer will reimburse or settle directly (cashless) the eligible expenses up to the sum insured for the policy year, subject to applicable deductibles, co-payments, and sub-limits.

SECTION 4.2

ICU and Critical Care

Intensive Care Unit (ICU) charges are covered up to twice the applicable daily room rent sub-limit. If the insured is admitted to ICU for fewer than 24 hours, charges are payable on actual basis provided the treating doctor certifies medical necessity. Ventilator charges, monitoring fees, and nursing care within ICU are included.

SECTION 4.3

Room Rent Sub-limits

Room rent is covered up to the limit stated in the policy schedule. If the insured opts for a room category exceeding the eligible limit, all associated charges (specialist fees, procedure charges, nursing care) shall be proportionally reduced on a pro-rata basis. The insured is responsible for the excess room-rent difference and all proportionate charges arising from room upgrade.

Part V — Day-Care Procedures

Procedures not requiring 24-hour hospitalisation

SECTION 5.1

Day-Care Procedures

Day-care procedures that do not require 24-hour hospitalisation due to advancement in medical technology are covered in full subject to the sum insured. The insurer maintains an approved list of day-care procedures including but not limited to: chemotherapy, dialysis, lithotripsy, angiography, endoscopy, and radiation therapy. Admission must be at a recognised day-care centre or hospital.

Part VI — Pre & Post Hospitalisation

Medical expenses incurred before and after hospitalisation

SECTION 6.1

Pre-hospitalisation Expenses

Medical expenses incurred up to 60 days prior to the date of hospitalisation are covered, provided they are for the same illness or injury that necessitated hospitalisation. Eligible pre-hospitalisation expenses include specialist consultation fees, diagnostic tests (blood tests, imaging), and medicines prescribed by the consulting specialist directly related to the admitted condition.

SECTION 6.2

Post-hospitalisation Expenses

Medical expenses incurred up to 90 days after the date of discharge from hospital are covered for the same condition. Eligible post-hospitalisation expenses include follow-up specialist consultations, prescribed medicines, physiotherapy sessions recommended by the treating doctor, and diagnostic tests confirming recovery or monitoring the condition. Expenses must be supported by discharge summary.

Part VII — Exclusions

Conditions and circumstances not covered under this policy

SECTION 7.1

Permanent Exclusions

The following are permanently excluded regardless of policy tenure:

- ✗ Cosmetic or aesthetic treatments including rhinoplasty, liposuction, and hair transplant
- ✗ Self-inflicted injuries or attempted suicide
- ✗ Treatment for alcoholism or drug abuse
- ✗ Experimental or unproven treatments not recognised by the Indian Medical Council
- ✗ Dental treatment except necessitated by accidental injury
- ✗ Optical correction including spectacles and contact lenses
- ✗ Infertility and assisted reproduction treatments
- ✗ Gender reassignment surgery

SECTION 7.2

War and Nuclear Exclusions

No benefit is payable for any hospitalisation or medical expense arising directly or indirectly from war, invasion, act of foreign enemy, hostilities, civil war, military coup, nuclear radiation, radioactive contamination, or ionising radiation from nuclear fuel or waste. This exclusion applies regardless of whether war has been formally declared.

Part VIII — Claims Process

How to lodge a claim — cashless and reimbursement procedures

SECTION 8.1

Cashless Claim Process

For cashless treatment at a network hospital, the insured must:

1. Present the health insurance card and a valid photo ID at the hospital's insurance desk at the time of admission.
2. Obtain pre-authorisation from the insurer's TPA for **planned hospitalisation at least 48 hours in advance**.
3. For **emergency admissions**, notify the TPA within **24 hours** of admission.

Failure to notify within 24 hours may result in the claim being processed as reimbursement only.

SECTION 8.2

Reimbursement Claim Process

For reimbursement claims, the insured must submit the following documents within **30 days of discharge**: duly completed claim form; original hospital bills and receipts; discharge summary signed by the treating doctor; investigation reports including blood tests and imaging; prescription copies; pharmacy bills; and indoor case papers if requested. Claims submitted after 30 days may be accepted with a written explanation of delay; **claims beyond 90 days will not be entertained**.

SECTION 8.3

Required Claim Documents

Mandatory documents for all medical claims:

1. Completed and signed claim form
2. Original discharge summary with diagnosis, treatment, and doctor's signature
3. Original itemised hospital bills and payment receipts
4. Doctor's prescription for medicines and tests
5. All diagnostic investigation reports (blood, urine, X-ray, MRI, CT scan, ECG, etc.)
6. Photo ID of the patient
7. Policy copy or health card

For surgery claims: operation theatre notes and implant invoices if applicable.

Part IX — Network Hospitals

Cashless treatment facilities and non-network hospital reimbursement

SECTION 9.1

Network Hospital Benefits

Treatment at a network hospital entitles the insured to cashless facility subject to policy terms. The insurer's network comprises over **5,000 hospitals across India**. Network hospitals have agreed tariff rates with the insurer, ensuring the insured is not charged beyond the network rate for eligible procedures. The current network list is available on the insurer's website and the TPA portal.

SECTION 9.2

Non-Network Hospital Treatment

Treatment at a non-network hospital is admissible on reimbursement basis only. The insurer will process the claim against actual bills subject to reasonable and customary charges for the geographical region and type of treatment. An additional **10% co-payment** applies to claims from non-network hospitals unless the hospitalisation was necessitated by an emergency and no network hospital was available within a **15 km radius**.

Part X — Sum Insured Features

Restoration benefit and No Claim Bonus provisions

SECTION 10.1

Sum Insured Restoration

If the sum insured is exhausted during the policy year due to one or more claims, it shall be **restored once by 100% of the original sum insured at no additional premium**. The restored sum insured applies only to claims arising from a different illness or injury than the one(s) that exhausted the original sum insured. Restoration does not apply to the same illness or same continuation of treatment.

SECTION 10.2

No Claim Bonus

For every claim-free policy year, the sum insured shall be increased by **5% (cumulative No Claim Bonus) up to a maximum of 50%** of the original sum insured, at no additional premium. In the event of a claim, the accumulated No Claim Bonus is reduced by 10% of the original sum insured. The base sum insured is never reduced below the original amount stated in the schedule.

Grievance Redressal

In case of any grievance relating to your policy or claim, please contact our Customer Care at 1800-XXX-XXXX (toll-free) or email grievance@claimxpert.in. If not resolved within 15 days, you may approach the Insurance Ombudsman in your jurisdiction as per IRDAI guidelines.
