

MEDICAL INSURANCE CLAIMS POLICY

(Sample / illustrative document for prototype testing – not real policy wording)

Section 1: Hospitalization Claims

Required document: Discharge Summary issued by the hospital, clearly stating the admission date, discharge date, and final diagnosis.

Required document: Itemized hospital bill with a full break-up of room charges, doctor's fees, medicine costs, and diagnostic charges. Hospitalization must be for a minimum continuous period of 24 hours to be eligible, except for specified day-care procedures.

Section 2: Pre-existing Condition Waiting Period

Claims related to any pre-existing medical condition disclosed at the time of policy purchase are only payable after a continuous waiting period of 24 months from the policy inception date.

Required document: Copy of the original policy proposal form showing the disclosed condition, where applicable.

Section 3: Cashless vs Reimbursement Claims

Required document for reimbursement claims: original payment receipts, itemized hospital bill, and discharge summary.

Required document for cashless claims: pre-authorization form completed and signed by the treating hospital's insurance desk.

Section 4: Diagnostic and Outpatient Claims

Required document: Original diagnostic reports (lab tests, imaging) along with the referring physician's prescription.

Outpatient diagnostic claims are only payable if directly related to a hospitalization event within the preceding or following 30 days.

Section 5: Maternity Claims

Required document: Antenatal records and hospital discharge summary confirming delivery date and mode of delivery.

Maternity claims are only payable after a waiting period of 9 months from the policy inception date, as specified in the policy schedule.
